

ROLE: Provide secure cloud service offerings to the federal government and maintain security in adherence with NIST/FedRAMP requirements

FEDRAMP IS COMMITTED TO:

- Creating a collaborative, open environment
- Facilitating a predictable and transparent process
- Providing clear and timely communications
- Clarifying expectations and requirements where needed

ELEMENTS OF CSP SUCCESS:

- Executive leadership commitment throughout the process
- Transparency about barriers and risks
- Commitment to understanding the relationship between security and compliance
- Quality documentation
